## Delta Junction - Street Paving and Road Improvements

**State Funding Requested: \$1,500,000****House District: 12 / F**

One-Time Need

**Brief Project Description:**

Brush cutting, restructuring road base, and pave streets in higher populated neighborhoods.

**Funding Plan:****Total Cost of Project: \$1,500,000***There is no other funding needed***Detailed Project Description and Justification:**

Delta Junction has committed to improving the area's transportation network. With the recent upgrades the City is providing safer streets through clearing of right-of-ways, design modifications including improved lighting and asphalt surfacing. As a result the community has controlled dust from local traffic, reduced street maintenance costs and reduced the noise levels of increased traffic flow.

As the community continues to increase in population and traffic volume as a result of the Ground Based Missile Defense operations and presence of the Alaska Army National Guard at Ft. Greely, these improvements became necessary.

The City has identified the next areas for road improvements. Most to include right-of-way brushing and road base upgrades with higher population subdivisions designated for paving.

This request for Capital Improvement funding, the City of Delta Junction at the hub of our Nation's security, will improve safety and reduce our operations and maintenance costs.

**Project Timeline:**

Obtain Funding	Summer 2010
Go to Bid	Fall - Winter 2010
Project completion	Fall 2011

**Entity Responsible for the Ongoing Operation and Maintenance of this Project:**

City of Delta Junction
